Gary,

I was able to track this down today and learned that the Trustee's water has been shut off since March 25, **2014** due to a major leak out there. He will continue to receive past due notices until he pays them. The fact that they are called "Turn Off Notices" can be misleading, but he should know that his water was already turned off a year ago.

If there is anything the City can do to assist in your operations, please let me know. Your efforts and progress are greatly appreciated.

James

James:

I am not sure that this will impact us as when we use the water we get it from a hydrant with a meter attached. We don't use water coming from a meter on the CES property as I think it was previously turned off by the city because there was a water leak.

Thanks

Gary Moore

Gary,

Thus far it seems like the "system" generated an automatic notice. I will have confirmation tomorrow that the termination scheduled for April 27 itself will be terminated and that grant funds are still available to keep you operating.

James

Do you know anything about this? See below. EPA is still on-site and working.

Thanks

Gary Moore

Hal/Abigail:

I wanted to make you aware that the City of Houston has sent notices (see attached) to David A. this week stating that all water services provided to 4904 and 4904 ½ Griggs Road will soon be turned off. We stopped paying the utility bills some months ago as the estate was running out of money. Wayne wanted me to make you aware of this matter so as not to have a negative impact on the clean up efforts of the facility currently in progress.
